# Volunteers Needed

## HELP NEEDED

Currently we have a gazebo which is taken to the majority of WMCCL events. It is a great benefit in the wet and cold for both riders and helpers alike.

Ideally, if you have a rider in the earlier races you could take it and if you have a rider in the later race to return it.

The gazebo is 1.5 metres in length which is smaller than the length of a bike.

### Sunday 6th October

It was a case of the morning after the night before with the weather, Saturday night had seen torrential rain, but Sunday morning brought sunshine & temperatures over 10 degrees, and although the wind got up we didn't see a rain drop all morning.

Today both rides set out for Harvington. It was good to see more uptake for the A ride, who started out with a minor mechanical in the park, chain off, Their route took them out through Himbolton & Bishampton then returned via the Lenches & Inkberrow.

The B ride also had a couple of mechanicals, a puncture & chain off on their route which went out via Inkberrow & the Lenches then returned via Alcester & Coughton.

We encountered a couple of minor floods on the road, paused to admire the force & height of the water at Coughton ford, did a slight detour round the closed roads in Alcester (10k run) and admired the fastest running chickens ever seen at Ellenden Farm!

# Sunday Ride Outs
